

## ORDERING INFORMATION

**PowerPath** is a complete learning system that can be used both individually and with groups. Using research and evidence-based practices, *PowerPath* has been developed with over 35 years of in-the-field studies and has demonstrated extremely positive outcomes yielding increased persistence, post testing, transitioning to postsecondary or employment, and personal empowerment.

*PowerPath's* three-part system works with youth, adolescents, and adults to engage, screen for specific brain-based learning challenges. The system provides innovative processes that *build* essential metacognitive and social/emotional skills simultaneously with academic or vocational skills. The *PowerPath* system builds the skills needed for self-advocacy.

**PowerPath is a proven system that:**

- Identifies learning and information processing challenges impacting participant outcomes and persistence.
- Screens the key areas related to learning: vision and auditory functions, reading encoding and decoding, visual and auditory processing, attention challenges and Visual Stress Syndrome.
- Provides personalized learning and workplace adaptations and strategies based upon each participant's *PowerPath* Screening results.
- Includes SMARTER Planning, a structured intervention process that builds 'learning how to learn' or metacognitive skills.
- Meets legal mandates, prepares for WIOA and RTI while increasing service accountability.
- Offers both Basic and Professional Levels of Certification.
- Generates individual and multiple-site program statistical reports.

**NOTE: A SET QUANTITY OF CONSUMABLES MUST BE ORDERED WITH EACH STARTER KIT**
