ORDERING INFORMATION

PowerPath is a complete learning system that can be used both individually and with groups. Using research and evidence-based practices, *PowerPath* has been developed with over 35 years of in-the-field studies and has demonstrated extremely positive outcomes yielding increased persistence, post testing, and personal empowerment.

PowerPath's three-part system works with youth, adolescents, and adults to engage, screen for specific brain-based learning challenges, and provides an intervention process that *builds* essential metacognitive skills simultaneously with academic or vocational skills and the skills needed for self-advocacy.

PowerPath is a proven system that:

- Identifies learning and information processing challenges impacting participant outcomes and persistence.
- Screens the key areas related to learning: vision and auditory functions, reading encoding and decoding, visual and auditory processing, attention challenges and Visual Stress Syndrome.
- Provides personalized learning and workplace adaptations and strategies based upon each participant's **PowerPath Screening** results.
- Includes SMARTER, a structured intervention process that builds 'learning how to learn' or metacognitive skills.
- Meets legal mandates while increasing service accountability.
- Offers both Basic and Professional Levels of Certification.
- Generates both individual site and multiple-site program statistical reports.

NOTE: A SET QUANTITY OF CONSUMABLES MUST BE ORDERED WITH EACH STARTER KIT

PowerPath Consumables -- * Consumable materials are needed to begin screening, interventions, and program implementation. Consumable sets include the ordered quantity of Personal Profile Folders and Basic Response Booklets, Strategy Sheets, SMARTER Plans, PLUS additional pads of Tasks & Timelines, Attention Challenges and Visual Stress Syndrome Screening Forms, and Visual and Auditory Functions Screening Forms. PowerPath Brochures are included at 50/100 consumables that are being ordered.

Quantity	Costs
